Agenda Item No. 3(C)

To: Honorable Chairperson and Members
Board of County Commissioners

Date: June 11, 2003

From: Steve Sniver
County Manager

Subject: Amendments to
Administrative Order 4-119:
Fee Schedule

This substitute item differs from the original in that it explains why a reduction in the 2003 Summer Fees is recommended and provides information on the revenue loss anticipated by the Department.

RECOMMENDATION

It is recommended that the Board of County Commissioners adopt the attached resolution approving amendments to Administrative Order 4-119: Park and Recreation Department's Fee Schedule for FY 2002-2003.

BACKGROUND

The purpose of the proposed amendments to the attached Administrative Order is to reduce the 2003 Summer Program fees to the previously established 2002 Summer Program fees. These fees are for the Department's Summer Programs that take place from June 16 to August 22, 2003 and are indicated on pages 23, 24, 29, and 30 of the attached Administrative Order.

Last fiscal year, the Department implemented a fee schedule for summer programs that restructured the existing fees from eleven (11) different weekly fees to five (5) weekly fees and included the cost of weekly field trips. At the same time of the restructuring, the Department also experienced a drop in summer program registration of approximately 20%. The summer program fees currently scheduled to go into effect this summer will further restructure the fee schedule to only four different weekly fees. Implementing this change will increase most of the weekly fees by \$10.

Before proceeding with another change to the summer program fees, the Department proposes to conduct a market research to analyze the customer base and expectations for programs offered by the Department as well as provide a comparison of programs and prices of other providers, both public and private. With this information, the Department will be able to evaluate and recommend an appropriate fee structure. By holding fees at the levels established last fiscal year, the Department projects to have at least the same number of registrants as last fiscal year. As a result, summer camp revenue is projected to be \$400,000 less

than budgeted. However, the Department had already projected a revenue loss with the implementation of the fee increase due to lower registration and a greater number of fee reductions.
